

Success story

**Structuring,
monitoring,
follow-up and
control of
projects**

Banco Mundial Social Development

Implementation and Custom Configuration of the Project Control SG Application

The power to manage more than
500 productive projects

Corporate Challenge

Banco Mundial functions as a cooperative made up of 189 member countries. The Banco Mundial group has two ambitious goals: To end extreme poverty and promote shared prosperity. To end extreme poverty, the bank's goal is to reduce the percentage of people who live on less than \$1.90 a day to 3% before the end of 2030.

Banco Mundial requires a technical solution that would allow the ability to carry out functions such as, structuring, monitoring, follow-up and control of the different projects of productive alliances between the Ministry of Agriculture and Rural Development and the producers of the field for more than 500 productive projects throughout the country and that will facilitate the control of more than 500,000 million Colombian pesos in resources.

What SMX Services & Consulting Inc. Did
